African Fractals Modern Computing And
In mathematics, a fractal is a subset of a Euclidean space for which the Hausdorff dimension strictly exceeds the topological dimension. Fractals tend to appear nearly the same at different levels, as is illustrated here in the successively small magnifications of the Mandelbrot set; Because of this, fractals are encountered ubiquitously in nature. Fractals exhibit similar patterns at ...

Like other aspects of the culture of Africa, the architecture of Africa is exceptionally diverse. Throughout the history of Africa, Africans have developed their own local architectural traditions. In some cases, broader regional styles can be identified, such as the Sudano-Sahelian architecture of West Africa. A common theme in traditional African architecture is the use of fractal scaling ...

Making Connections: The General Education Curriculum. The University of North Carolina at Chapel Hill strives to cultivate the range of skills, knowledge, values, and habits that will allow graduates to lead personally enriching and socially responsible lives as effective citizens of rapidly changing, richly diverse, and increasingly interconnected local, national, and worldwide communities.

General Education Curriculum and Degree Requirements ...
No Child Left Behind legislation had an impact on the professional development that educators might need. The act required every teacher of a core academic subject to be "highly qualified" to teach by the end of the 2005-2006 school year (107th Congress, 2002, section 1119, 115 STAT. 1506).

Arrays are structures that organize related data into sets. This demo application uses the C# Array class members Length and Sort. Although this example is more fun than practical, it demonstrates how Array properties and methods can be used.

C# Arrays (Console Application) • Programming is Fun
Relying upon math experts and enthusiasts to define the subject is likely to lead to a variety of conflicting and wide-ranging answers. Let’s be safe, then, and call upon dictionary solutions to this question. Most non-specialist dictionaries define mathematics by summarizing the main mathematics ...

Science Research Focus Areas. The Faculty of Science constantly produces exceptional research results that are also to the benefit of society. Our Botany and Plant Biotechnology Department played a key role in the ground-breaking discovery of a ‘barcode’ gene. This gene provides scientists with innovative ways to easily identify different plants by analysing the DNA of the species.
