Archival And Recordkeeping Theory Into
The Records Continuum Model (RCM) was created in the 1990s by Monash University academic Frank Upward with input from colleagues Sue McKemmish and Livia Iacovino as a response to evolving discussions about the challenges of managing digital records and archives in the discipline of archival science. The RCM was first published in Upward’s 1996 paper “Structuring the Records Continuum ...

A Glossary of Archival and Records Terminology
Records management, also known as records and information management, is an organizational function devoted to the management of information in an organization throughout its life cycle, from the time of creation or inscription to its eventual disposition. This includes identifying, classifying, storing, securing, retrieving, tracking and destroying or permanently preserving records.

Defining records. The Macquarie Dictionary (4th ed. 2005) defines ‘record’ as ‘an account in writing or the like, preserving the memory or knowledge of facts or events’ or as ‘information or knowledge, preserved in writing or the like’.. Generally speaking, in Commonwealth legislation the ordinary definition of record has been extended to include ‘information stored or recorded ...
